

ANSON BENNY

Cybersecurity · Technical Pre-Sales · Client Solutions · Threat Intelligence

ansonbenny2312@gmail.com | +91 9633470233 | [linkedin.com/in/ansonbenny](https://www.linkedin.com/in/ansonbenny) | github.com/ansonbenny2313 | DOB: 01 May 2001

PROFESSIONAL SUMMARY

M.Tech Cyber Security postgraduate and dual-published researcher (Scopus + IEEE) with deep technical expertise in threat detection, network security, and AI-powered cybersecurity solutions. GATE-qualified (93.07 percentile, Top 7% nationally) with proven communication and stakeholder engagement skills from two years of technical community leadership (IEEE & TEDxAJCE). Uniquely positioned to bridge complex cybersecurity technology and client business needs — translating technical depth into solution-oriented conversations that drive successful deal closures.

EDUCATION

VIT Bhopal University

M.Tech — Cyber Security and Digital Forensics

- Coursework: Threat Intelligence, Network Security, Cloud Security, SIEM, Vulnerability Assessment, Digital Forensics

2025 – Present

Madhya Pradesh, India

Amal Jyothi College of Engineering

B.Tech — Computer Science and Engineering | CGPA: 8.2 / 10

2019 – 2023

Kanjirappally, Kerala

Montfort School Anakkara

Class XII: 83% | Class X: CGPA 9.8

2017 – 2019

Anakkara, Kerala

CORE COMPETENCIES

Cybersecurity Domain: Threat Detection, SOC Workflows, Vulnerability Assessment, Network Security, SIEM, Digital Forensics, Cloud Security (CASB/CSPM/CNAPP), Incident Response

Technical Pre-Sales: Solution mapping to client requirements, translating complex technology for non-technical audiences, client needs assessment, competitive positioning

Communication: Public speaking, structured presentations, stakeholder management — led events with 100+ attendees at IEEE & TEDxAJCE

AI/ML for Cybersecurity: RoBERTa transformers, SHAP explainability, One-Class SVM, ML threat classification (Scopus-published research)

Tools & Scripting: Wireshark, Nmap, Kali Linux, Python, Bash, Git, MySQL

RESEARCH & TECHNICAL PROJECTS

Forensic Framework: Detecting Covert Screen Recording in VoIP Sessions

2025 – Present

M.Tech Research (Ongoing) — Mobile Security & Digital Forensics

- Identified a critical underserved threat (sextortion via VoIP) and designed a novel OS-level detection framework using One-Class SVM and Time-Series Analysis — demonstrates ability to spot emerging cybersecurity problems clients face and articulate innovative solutions.
- Explains the 'why' behind the solution clearly to any audience — the skill that matters most when recommending cybersecurity products to enterprise clients.

Phishing URL Detection with RoBERTa and XAI — Scopus-Indexed

2025

Accepted: Indonesian Journal of Science and Technology

- Built AI-powered phishing detection with SHAP explainability — deep understanding of how modern ML-based threat intelligence products work, enabling authoritative client conversations and credible product recommendations.

Suicidal Ideation Detection Web Application — IEEE Published

2022 – 2023

IEEE International Conference on Circuit Power and Computing Technologies (ICCPCT)

- End-to-end Python ML web application — demonstrated ability to explain full system architecture clearly and concisely to diverse technical and non-technical audiences.

COMMUNICATION, LEADERSHIP & CLIENT ENGAGEMENT

IEEE & TEDxAJCE — Design Lead & Office Bearer

2021 – 2023

Technical Community Leadership

Kanjirappally, Kerala

- Delivered briefings and presentations to large diverse audiences including students, faculty, and industry professionals — confident structured communication under pressure.
- Coordinated 10+ cross-functional stakeholders simultaneously — multi-stakeholder management directly applicable to enterprise client engagement and deal coordination.

NSS — Regional Coordinator & Volunteer Secretary

2020 – 2022

National Service Scheme

Kanjirappally, Kerala

- Conducted structured training and needs-assessment sessions for diverse groups — adapted communication to audience, assessed requirements, and delivered solutions accordingly.

ACHIEVEMENTS & CERTIFICATIONS

- GATE 2024–25 — 93.07 Percentile in CS & IT (Top 7% nationally) — exceptional analytical ability and technical mastery
- Dual-Published Researcher — Scopus-indexed (Indonesian Journal of Science & Technology, 2025) + IEEE ICCPCT 2023
- Faculty Development Program — Security & Forensic Tools | ISEA Phase III, MNIT Jaipur | Sponsored by MeitY, Govt. of India
- Adobe Photoshop & Illustrator Advanced — Udemy Certified — strong visual presentation and client communication design skills
