ABOUT ME

Cyber Security postgraduate specializing in **application security, network security, and digital forensics**. GATE-qualified engineer with strong analytical and problem-solving skills. Having knowledge about **Vulnerability assessment, and network security tools** such as Wireshark and Nmap. Interested in secure software development, threat detection, and improving the security of web and mobile applications.

EDUCATION

VIT Bhopal University <i>M.Tech in Cyber Security and Digital Forensics</i> – Relevant Coursework: Network Security, Digital Forensics, Database Security, SIEM, Incident Response	Madhya Pradesh, India 2025 - Present
Amal Jyothi College of Engineering <i>B.Tech. Computer Science and Engineering; CGPA: 8.2</i>	Kanjirappally 2019 - 2023
Montfort School Anakkara <i>Class 12 (83%) Class 10 (CGPA 9.8)</i>	Anakkara 2017 - 2019

ACHIEVEMENTS

GATE Qualified: Secured 93.07 percentile in GATE (2024-25)

CERTIFICATIONS & PROFESSIONAL TRAINING

Faculty Development Program – Security and Forensic Tools: Five-day training under Information Security Education & Awareness (ISEA) Phase III, sponsored by Ministry of Electronics and Information Technology (MeitY), Govt. of India and organized by MNIT Jaipur. Exposure to cybersecurity investigation and forensic tools.

TECHNICAL SKILLS

Programming: Python, C, C++, Java
Cybersecurity: Application Security Fundamentals, Vulnerability Assessment, Basic Penetration Testing, SIEM Concepts, Log Analysis, Incident Response
Security Tools: Wireshark, Nmap
Networking: TCP/IP, DNS, HTTP/HTTPS, Network Protocol Analysis
Platforms: Kali Linux, Windows
Databases: MySQL, Basic SQL Querying
Soft Skills: Analytical Thinking, Problem Solving, Leadership, Communication

EXPERIENCE

Riverrises Technologies
Intern - Graphic Design & Content Creation 2021
– **Responsibilities:** Designed digital creatives and assisted in content development for marketing and digital platforms.

PROJECTS

Suicidal Ideation Detection Web Application: Developed a machine learning based web application to analyze user inputs and predict mental health risk indicators. Implemented backend data handling and basic input validation to ensure secure processing of user data. Research validation published in IEEE ICCPCT 2023.
Adithi: Digital Visitorbook for INS Vikrant: Developed Android application for digital visitor management. Designed workflow, database integration, and user interface. Tech: Dart, Flutter, Photoshop, Illustrator.

PUBLICATIONS

Suicidal Ideation Prediction Using Machine Learning: Published in IEEE International Conference on Circuit Power and Computing Technologies (ICCPCT), 2023

VOLUNTEER EXPERIENCE

Jesus Youth <i>Fulltimer Volunteer</i>	Pro-Life India 2023 - 2024
National Service Scheme (NSS) <i>Regional Coordinator & Volunteer Secretary</i>	Kanjirappally 2020 - 2022
IEEE & TEDxAJCE <i>Design Lead & Office Bearer</i>	Kanjirappally 2021 - 2023
